INTRODUCTION

Service to Man is Service to GOD
- Sai Baba

This universe is a unique creation of GOD. It is full of known and unknown creations. Nothing is possible without divine presence, means divinity is present in everything in his own image which is matter of realization. In fast growing modern era, we have become more material than the real because of ignorance which is the root cause of all i.e. problems, sufferings, disorders and diseases. Many sages and seers (*Rishis*) tried to overcome the ignorance and succeeded to certain extents. On the other hands, many means, methods and modalities were developed to heal and treat the physical problems and sufferings according to culture and civilization through various healings and medical care called traditional medicine.

From various traditional treatment and healing, the modern medicine emerged on scientific basis but the aims of all the systems remained the same i.e. relief of suffering. AUM Therapy has been brought with broader concepts based on òPrinciples of Divine Existingö. Though, I am not competent enough to write about the divinity and divine care, however, a small effort has been made with divine grace and intuitions. *AUM Therapy is a Comprehensive Approach for Integrated Health and Holistic Care*. It provides a newer direction of healing and self realization. It is an integrated approach through traditional, holistic and modern systems and its principles, diagnostic and or therapeutic measures. The approach is practical and systematic. AUM Therapy provides a way to make one to understand the presence of divinity in him through self realization. This opens the gate for action of all therapeutic measures and healings provided applied properly. It includes all techniques in all spheres of universal creations to have auspicious hearing, vision and acts (*Karmas*).

The present book is being offered for the benefits of all who are involved in any way in the field of holistic, traditional, modern healing and therapies. It will also provide basic ideas of humanity, health and holistic spheres of individuals who are in search of any kind of reality with special reference to the sufferings, disorders and diseases. This book is the main guide for the courses of AUM therapy.

I welcome the valued guidance of the learned physicians, healers and clairvoyance scholars to bring a more comprehensive and revised edition for the benefit of masses.

FOREWORD

Ancient Indian scriptures e.g. *Vedas, Parana's, Upanishads* along with Ayurvedic medical treatises etc and our sages have utilized the cosmic creative principles for human relief, health and well being (*physical, mental, social, moral, spiritual and environmental*) since the manifestation of our universe.

AUM / Pranava is the word used as divine name in the beginning of sacred mantras and is the God itself. The three syllables e.g. *õAö* stands for creative energy *õUö* for life energy *õMö* annihilation of the universe representing three dimension/functions of *õGodö* as *Brahma, Vishnu* and *Mahesh* respectively for the evolution of the cosmos according to laws of nature which follow in cycled manner one after another without any disturbance.

õAUMö utilizes the vibrating energy produced during pronunciation of *õAUMö* apart from its divine quality, for the physical, mental, social, spiritual evolution and well being of human race. Proper pronunciation is the mainstay of this therapy apart from its divine quality.

I commend the effort of Dr. N.P. Dubey of thinking about the philosophy and methodology of this spiritual therapeutic element of alternative medicine of this divine energy for human welfare.
